## ABOUT ME

My journey and love for coding has just began, In near future my goal is to become a full-stack developer. I do enjoy the challenge of never stop learning new languages, tools and software applications. I'm most passionate when I am given problems to solve and create something that many people will find it useful and make positive impact in their life.

## EDUCATION

**17-Pr** **Diploma in Software Development**  
Coder Factory Acedemy

I'm not only learning full-stack web technologies, but also expanding my knowledge on web application development processes.

**10-13** **Bachelor of Commerce (Information System)**  
Curtin University

Identifying business requirements and translate the information into technical requirements.

**07-10** **Diploma of IT (Networking)**  
TAFE Central Institute of Technology

Studied on different operating systems and range of networking technologies.

## EXPERIENCES

**15-Pr** **The Star Casino**, Croupier

Customer service experience gained in an extremely busy outlet and high expectation of 5 stars entertainment complex.

**13-14** **Ascent IT**, Support Officer

Provided a level I/II IT support and maintained client's services, such as IP telephone and Window Server network.
